

2010
Heritage at Risk List
Nomination Form

The Galveston Historical Foundation (GHF) annually compiles a listing of endangered historic resources on Galveston Island that are at risk of being lost. The main focus of this list is to shine a light on these endangered resources, garner public support, assist property owners when possible, and help guide GHF's preservation priorities for the future. GHF calls on the public for their input so that the Foundation's goals reflect those of the community we serve.

The Heritage at Risk List is not limited to just buildings, in the past GHF listed designated landscapes, sites, objects, and monuments that compose the cultural landscape of Galveston Island. There is also an opportunity to nominate entire types of built resources such as our listing of Corner Stores and also Historic Seawall Properties.

The Heritage at Risk List is modeled after the National Trust for Historic Preservation's *11 Most Endangered Historic Places*. Our list has one major difference when compared to the Trust's, we keep a resource on the list until we feel that the threat has subsided or been significantly mitigated.

In depth evaluations for the *Heritage at Risk List* are done during the judging of our Historic Preservation Awards. The Preservation Outreach Committee works to compile a list of nominations, this list is then sent on to GHF's Steering Committee of our Board of Directors for a final decision on inclusion. The list will be debuted on May 7th, 2010 at the second annual Sally Wallace Historic Preservation Awards ceremony.

APPLICATION DEADLINE: 4:00 pm FRIDAY, APRIL 9, 2010

Four major criteria for listing

1. Listed properties or resources must be significant (*i.e.*, listed in or eligible for listing in the National Register of Historic Places, a contributing resource in a national or local historic district, or an important local historic resource).
 2. Resources must be in danger of being demolished, severely neglected or unsympathetically altered.
 3. Listed resources must possess reasonable potential for being saved.
 4. Listing will have a positive impact on preservation strategy.
- Endangered properties or resources will remain on the list so long as active threat is present.
 - The list will be based on preservation priorities as opposed to marketing or fundraising concerns and will be used first and foremost as a goal setting program for GHF.
 - The list may include resources other than buildings (*e.g.*, landscapes or landscape features, sites, industrial structures) and may also be thematic rather than site-specific (*e.g.*, alley houses, corner stores).

GHF 2010 Heritage at Risk List Nomination Form

Building or Resource Nominated (one nomination per form)

Building/Resource: _____

Original date of construction: _____

Historic name: _____

Nominator

Name: _____

Title & Organization (if applicable): _____

Mailing Address: _____

City _____ State _____ Zip _____

Telephone _____ Email _____

Nomination Process

Briefly explain the significance of the built resource and how/why you feel it is worthy of a nomination. Please attach no more than a one page narrative.

Remember, a lot of details can be seen in the photographs; please limit to 5 pictures maximum. Please use a 300 dpi resolution .jpg format for digital photos.
